## **DETAILED ACTION**

Due to the complex nature of the claims, no request for an oral election is being made. Please see MPEP 812.01.

## Election/Restriction

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-18, drawn to a composition, classified in class 424, subclass 439+.
  - II. Claims 19-36, drawn to methods for masking unpleasant tastes, classified in class 426, subclass 72+.
- 2. The inventions are distinct, each from the other because of the following reasons:

  Inventions I and II are patentably distinct. Group I is drawn to compositions containing amino acids or protein components/hydrosylates and sucralose whereas Group II is drawn to methods of masking unpleasant tastes of amino acid or protein components/hydrosylates by adding sucralose. The methods of Group II can be practiced with materially different compositions such as cyclodextrins and liposomes.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1614

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the

inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the

currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a request under 37

CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
